

A way Stream Teams can help Joplin without leaving home!

As Joplin rebuilds, parks will need to be rebuilt as well. The Joplin parks department has relatively limited resources to respond to this epic and tragic disaster. The Department of Natural Resources State Parks Division is working with the city to identify how they can provide professional assistance during the redevelopment of parks for the city's residents. Meanwhile, they are helping by donating the trees they would ordinarily get from the annual Odwalla Plant a Tree Campaign to Joplin.

By visiting the website below and filling out the plant a tree form, a free tree will be sent to the Missouri State Parks Department, which they will in turn give to Joplin for their recovery efforts. Stream Teams across the state can help without leaving their own homes.
