Action Needed to Help Streams

Diversity of the Missouri River Especially the FISH!

Wednesday, October 6, 2010

5:00 p.m. – 8:00 p.m.

**Powder Valley Conservation Nature Center
Kirkwood, MO**

Did you know a part of the Big Muddy National Wildlife Refuge is right here in the St. Louis region? Please join us to learn more about this Refuge and how you can enjoy it. Come to an open forum to visit booths and participate in activities sponsored by the Big Muddy National Wildlife Refuge, Friends of the Big Muddy, the Missouri Department of Conservation, the Missouri Department of Natural Resources, Missouri Stream Team, and more!

At 6:30 p.m., we will have a special presentation “Beyond Catfish: the Diversity of Missouri River Fish” by Andy Plauck, a U.S. Fish & Wildlife Service biologist. Most people know about catfish and sturgeon, but what other Missouri River fish can you name? Few people know these fish like Andy does, who has been studying them for years. He will be giving us a glimpse of the diversity of fish species that never reach the headlines!

Open to the public and no reservations necessary.

Powder Valley Conservation Nature Center is located at 11715 Cragwold Road in Kirkwood, MO. From I-44 east to Kirkwood, take S. Kirkwood Road (Route 61/67). Follow Route 61/67 to Watson Road. Go west on Watson Road to Geyer Road. Go north on Geyer Road 200 yards to Cragwold Road. Go 1 mile west on Cragwold Road. Visit www.mdc.mo.gov/regions/st-louis/powder-valley. Questions?
