Enclosed is the 2019 Level 1 Volunteer Water Quality Monitoring (VWQM) workshop schedule.

This level of training includes chemical monitoring, visual survey, and a review of invertebrate identification techniques.

To attend a Level 1 workshop, a monitor must have attended an Introductory Level workshop* and submitted the following:

- Site Selection form with a map of monitoring site location
- Stream Discharge data sheet
- Biological Monitoring data sheet

Prerequisite data may be submitted with the workshop registration form.

Each workshop is free of charge and consists of six (6) hours of classroom instruction and two (2) hours on a stream to demonstrate monitoring methods. Although the level of material presented is not designed for children, older youth accompanied by an adult are welcome (maximum 3 per adult).

Need a refresher course? Monitors are welcome to register for a workshop as a refresher and are encouraged to attend if a few years have passed since their last training.

**TO REGISTER:**

Complete the online registration form at mostreamteam.org or fill out and return the attached form.

You will receive a confirmation letter and directions after the registration deadline date. Class size will be limited to 30 people per workshop and is filled on a first-come, first-serve basis. Individuals under 18 years of age must be accompanied by an adult.

**For more information:**

Registration form must be returned by the deadline. Register online at mostreamteam.org. Attendance will be limited to 30 people per workshop. Wear outdoor clothing and bring boots or river shoes in preparation for wading in the stream. Registration confirmation and directions to the workshop will be mailed to registrants prior to the workshop.

For questions about the workshop, contact Molly Vannoy (DNR) at 573-526-1156.

The Stream Team Volunteer Water Quality Monitoring Program makes every effort to provide ADA accessible programs, however some aspects of this activity may not be suitable for those with certain disabilities. People with disabilities requiring special services or accommodations to attend the training can make arrangements by calling 573-526-1156 or by writing two weeks in advance of the training to: Department of Natural Resources, Water Protection Program, PO Box 176, Jefferson City, MO 65102.

Stream Team workshops are a tobacco-free environment. Tobacco usage will be allowed in designated areas.
